SUBJECT No. 527.

A suitable ward for out-patients in the Channapatna Hospital.

Mr. Ramasanjeevaiya, Channapatna Municipality.

Summary of discussion.—Poor patients who come from distant places for treatment in the Channapatna Hospital feel the difficulty for accommodation. If suitable wards could be provided for them to stay for a few days, it would be a boon to the poor sufferers.

Reply of Government.—Noted.

SUBJECT No. 528.

Government Choultry at Channapatna.

Mr. Ramasanjeevaiya, Channapatna Municipality.

Summary of discussion.—If the Government Choultry at Channapatna is managed through Dharmadarsis, the institution will be more useful to the people.

Reply of Government.—Noted.

SUBJECT No. 529.

The opening of a Munsiff's Court in Channapatna.

Mr. Ramasanjeevaiya, Channapatna Municipality.

Summary of discussion.—Channapatna is a busy centre for litigation. And people from the surrounding parts have to go a long way, about a distance of 50 miles, to resort to Court. The opening of a Court here for the taluks of Magadi, Kankanhalli and Closepet, will save the people from trouble.

Reply of Government.—Noted.

SUBJECT No. 530.

Channapatna Town improvement.

Mr. Ramasanjeevaiya, Channapatna Municipality.

Summary of discussion.—During the plague of 1898, the sanitation of the town was improved by opening roads and conservancy lanes. But since then these roads and lanes have remained dirty and insanitary owing to the inability of the Municipality to effect further improvements. No funds can be spared for this purpose. If the Government were to lend the necessary funds on condition of receiving it back in annual instalments out of the savings in Octroi collection, a boon will be conferred on the town.

Reply of Government.—Noted.

SUBJECT No. 531.

Water-supply to Channapatna.

Mr. Ramasanjeevaiya, Channapatna Municipality.

Summary of discussion.—Difficulty for drinking water in Channapatna which has a large population of 14,000 has been a long-standing grievance of the town. In spite of the repeated prayers, the project has not gone further than investigation by the Public Works Department. In 1905-06 the difficulty was keenest. The Government may kindly take steps for an early arrangement for the same.

Reply of Government.—The project of improving the capacity of the Kudineerkatte is under consideration in the Public Works Department.

SUBJECT No. 532.

Shifting of one of the Additional Munsiffs' Courts from Bangalore to Closepet.

Mr. Mudvira Setti, Closepet Sub-Taluk.

Summary of discussion.—Closepet occupies a central place between the three taluks of Kankanhalli, Channapatna and Magadi. All those that take the railway route to Bangalore from these taluks have to catch the train here. Therefore it will be a boon to the people of these parts if one of the two Additional Munsiffs' Courts in Bangalore were to be shifted to this place. It will save the trouble and worry of going to Bangalore often, especially in Civil Cases where decisions could be obtained after long periods of two or three years.

Reply of Government.—Noted for consideration.
